

UK broadband speed test results November 2022

This press release gives the aggregated speed test results from the hundreds of thousands of tests carried out by users of broadband.co.uk during November 2022.

Fixed line home broadband providers

Average fixed line download & upload speeds (Mbps) – November 2022						
Rank	Was	Broadband Provider	Average Download		Average Upload	
			Speed	Change	Speed	Change
-	-	All home broadband	81.98	-0.11	19.63	+0.38
1	1	Virgin Media	157.07	-20.68	21.25	+0.31
2 ▲	4	BT	72.23	+1.16	16.61	-0.17
3	3	Vodafone Home	69.74	-3.6	23.55	-3.29

Overall speed performance of consumer mobile broadband is roughly comparable to that of many fixed line broadband providers. However, only 9.29% of the speed tests performed in November 2022 took place over a mobile broadband connection.

While the availability of the fastest mobile data transfer protocols varies with location, and some tests will be performed on 3G or even 2.5G GPRS connections, the same is true for fixed line broadband providers whose flagship products may not be available in rural and remote areas, or may not be adopted by consumers preferring cheaper speed-limited alternatives.

While most UK broadband providers place much less marketing emphasis on upload speeds, this is an increasingly important factor in broadband satisfaction. As more and more storage moves to the cloud, being unable to quickly save or sync to servers on the internet increasingly impacts the user experience in apps. This is even more important to those who work from home, or who create online video content.

In November 2022 average fixed line broadband download speed was 4.18 times faster than upload speed, while mobile broadband downloads averaged at 6.45 times the speed achieved for mobile uploads.

The rollout and increasing adoption of full fibre broadband services will see the gap between download and upload performance shrink, especially from providers offering symmetric services.

Consumer broadband download speeds - time of day

Average download speeds (Mbps) split by time of day – November 2022				
Broadband Provider	Overnight (00:00 to 07:59)	Daytime (08:00 to 17:59)	Evening (18:00 to 23:59)	Overall (00:00 to 23:59)
All home broadband	82.04	81.76	82.4	81.98
All mobile broadband	63.98	44.3	54.15	49.15
Virgin Media	177.75	153.18	159.5	157.07
BT	59.09	72.48	74.85	72.23
Sky / NOW Broadband	53.25	50.12	46.73	49.16
TalkTalk	37.84	39.79	40.06	39.66

Our average speed by time of day report shows how the average broadband speed is heavily influenced by the time of day (and therefore likely level of network congestion).

Fixed line broadband advertised speeds are now based on the speed achieved by 50% of customers during peak evening hours of 8pm to 10pm.

Supplemental UK broadband providers

Average download & upload speeds (Mbps) – November 2022		
Broadband Provider	Average Download	Average Upload
toob	143.74	154.7
Vodafone Wholesale	49.2	26.27
Gigaclear	104.7	77.98
TalkTalk Business	36.9	16.21
Community Fibre	219	132.73

Here we list additional fixed line broadband providers with fewer customers making use of our speed test. All providers listed have sufficient test numbers across the month to make average speeds statistically significant, but not enough tests to be split by time of day. The lower down the list, the less confident we are about the overall accuracy of the average results.

It should be noted that some of these supplemental ISPs, such as Zen, primarily supply broadband to the business market, and so may utilize technologies not available to the vast majority of home broadband users.

UK broadband speed test results November 2022

About the Broadband.co.uk speed test results

- Our results are taken from our website users performing speed tests using our speed checker at <https://www.broadband.co.uk/broadband-speedtest/>
- We record hundreds of thousands of speed tests every month
- Unlike other speed test services we record the Internet Service Provider (ISP) by IP address making our ISP recording very accurate rather than relying on self selection. Certain ISPs resell their services as a wholesale or white label product, in these cases the wholesale ISP is matched
- We pick out the following 'big 8' fixed line ISPs for detailed reporting every month:
 - **BT wholesale network** (used by several suppliers outside their own low cost network areas)
 - **EE** (excluding 4G mobile broadband)
 - **Plusnet wholesale network** (used by John Lewis)
 - **Sky** (also sold as NOW Broadband)
 - **TalkTalk wholesale network** (used by suppliers such as Utility Warehouse, Post Office Broadband and First Utility)
 - **Virgin Media**
 - **Vodafone**
 - **Zen**
- As our test is one of the few that will run on mobile devices and tablets, we're also able to report on the following mobile broadband networks:
 - **EE** (used by Virgin Mobile, Plusnet Mobile, Asda Mobile and Phone Co-Op)
 - **O2** (used by Tesco Mobile, Sky Mobile, TalkTalk Mobile and giffgaff)
 - **Three** (used by Superdrug Mobile, TPO Mobile and FreedomPop)
 - **Vodafone** (used by Talkmobile)
